

## **CORRECTIONAL FACILITY EXPERIENCE**

---

### **Parnall Correctional Facility, Jackson, MI**

Completely removed the existing steam HVAC system for 12 buildings totaling 524,135 square feet. Removed building from a central steam plant to a gas fired equipment system for most of the buildings and a hot water boiler system for the cell blocks. Installed new mechanical and electrical to install new energy efficient systems.

### **Huron Valley Center, Ypsilanti, MI**

Project consisted of reworking existing kitchen, converted existing serving area into sleeping quarters for 28 inmates, provide mechanical, plumbing, electrical and data to a new 48 X 76 modular unit. Relocate existing security, camera and gate controls from the TRV Control Station to the modular unit. Provide electrical, mechanical, plumbing, security, and voice/data services for the complete remodel of the MSI Warehouse for use as classrooms, Library, Salon, bathrooms, and Gym. Provide electrical, mechanical, plumbing, and security service in Housing Unit C, renovation from seclusion to maximum security.

### **Pine River Correctional Facility, St. Louis, MI**

Project consisted of reworking existing kitchen, converted existing serving area into sleeping quarters for 28 inmates, provide mechanical, plumbing, electrical and data to a new 48 X 76 modular unit. Relocate existing security, camera and gate controls from the TRV Control Station to the modular unit. Provide electrical, mechanical, plumbing, security, and voice/data services for the complete remodel of the MSI Warehouse for use as classrooms, Library, Salon, bathrooms, and Gym. Provide electrical, mechanical, plumbing, and security service in Housing Unit C, renovation from seclusion to maximum security.

### **Ionia Prison Complex, Ionia, MI**

Project consisted of Mechanical, Plumbing, and Electrical energy upgrades to the facilities including new lighting, plumbing fixture upgrades, (2) new boiler plants, (2) new high pressure steam boiler plants, equipment, and control upgrades. The total mechanical, plumbing, and electrical construction value was approximately \$35,000,000.
